

**Emergency
Response**

Project Overview

Emergency Humanitarian Assistance for IDPs and Conflict- Affected Communities in Kayin State (EHAI)

With support from the Myanmar Humanitarian Fund (MHF), Community Partners International (CPI) is implementing the Emergency Humanitarian Assistance for IDPs and conflict-affected communities (EHAI) Project in three townships in Kayin State and Bago Region, Myanmar.

The EHAI project supports the delivery of critical health, hygiene, protection, nutrition and education services to vulnerable populations in seven townships. Target populations include people living in conflict-affected areas, communities with histories of multiple displacements, communities receiving internally displaced persons (IDPs), and those living non-government controlled areas with poor access to health services.
